I would like to get to know you baby
Like to get a piece of dat sexy body
I would like to get to know you baby
Like to get a piece of dat sexy body

I would like to turn you on from the night straight up till
dawn
On 'n' on 'n' on 'n' on 'n' on 'n' on see you walking down
the street
Your the man I want to meet in my bed and in between
my sheets
And should I never look so sweet, see them boys they
make me see
Knock me boy, you knock me off my feet

So, I would like to get to know you baby
Like to get a piece of dat sexy body
I would like to get to know you baby
Like to get a piece of dat sexy body

I will rock you to the rhythm of the rain
And ride you like a evening train
And one day you can't complain

I give you everything body and brain
And that love makes my lips say
Make them body go in there face
Make them girls call out their name

I would like to get to know you baby
Like to get a piece of dat sexy body
I would like to get to know you baby
Like to get a piece of dat sexy body
