if i head off into the hills on a horse that can't swim will  
you find me alive?  
if i throw my own life into all of the things that i cannot  
believe,  
will you comfort me?  
can I comfort you?

mr. america loves you  
mr. america saved you

if i feel all the things i concieve will my mind clear itself  
of the things that i can't ?  
if you're feeling some soul and you want to reach in  
then please have a go.  
will you comfort me?  
will you rescue me?

mr. america loves you  
mr. america saved you

you are all of the things that i've been hiding from why  
do i have to run?  
if i walk off into a crowd will i still feel alone, will my  
head still be bowed?  
will you comfort me?  
can i comfort you?
