You spin it round here
I'm covered in fake fun
Cannabis you're a faker
I'm bicycling under the streetlights
But I will greet the evening with alcohol
I'm drunk like my guardian angel

You don't see, I do
I can see you so we wait

High makes me low
Fast forward my life
In the awful clear light of heinzeit
I'm speeding speeding to a red light
And I was hoping you would be of from work
I'm having sex with my computer

You don't see, I do
I can see you so we wait

Never did my ABC
Didn't work with ADD
And I never do cocaine
I just love the smell of it

You don't see, I do
I can see you so we wait
