Some bad bitches, twist and swishers then we blazing
weed
Lights, camera, sound, crowd screaming and some
banging beats
Yep, that's all I need, yep that's all I need,
yep that's all I need, yep that's all I need
Fresh kicks, couple zips and some latin chicks
Banging crowd, raging out, Cak-ill-ak, classic shit
Yep, that's all I need, yep that's all I need,
yep that's all I need, yep that's all I need

,who I be, meet T's and 23's, Knee guards and a couple
trees
And a stoner chick that's petite
I got out with eat, but the beat, it's guaranteed
You see, I am a beast, and I'm coming straight out the
east
803 my city, I'm trying to run it like Diddy
Nothing close to celebrate but ain't none of you fucking
with me
And I only spit the real so them, them niggas that feel
me
I'm out here chasing dreams wanna stop me you got
to kill me
I ain't Kurt Frank but I'm looking for a brighter day
Niggas try to steal my lane but I got it right away
So filled up with pain I just grab a pen and write away
Be fresher than a mug, I might fuck around and fly
away
Shout out to my flight club members out there getting
paid
Spending money on them jays, rock them shits like
eryday
Money on my mind, I'm trying to get that shit in erylway
Lately I don't give a f.u.c.k. what these niggas say

Some bad bitches, twist and swishers then we blazing
weed
Lights, camera, sound, crowd screaming and some
banging beats
Yep, that's all I need, yep that's all I need,

yep that's all I need, yep that's all I need
Fresh kicks, couple zips and some latin chicks
Banging crowd, raging out, Cak-ill-ak, classic shit
Yep, that's all I need, yep that's all I need,
yep that's all I need, yep that's all I need

Why the fuck you jock man, cause your weed not lying
And your bitch not fine
All mine, top line, keep a watch cops trying
Catch my people posted on the corner like stop signs
I ain't got time for all that acting hard
Hey bra I'm tryina find, a pair of latin broads
Menaging *mwah* girl, meet me in the car
I got some brizzles at the crib if you don't see me at the
bar
I'm a lone star, I'm on my Texas shit
Yeah, I make these haters all exit, exit this
And I'm the star of the flick, no extra shit
My team circle round the L on some lexus shit
I'm just out here, doing what I gotta do
Say you gonna make a move, partner who is stopping
you?
I just wanna ride with you, it ain't that crunk hard shit
But all the girls gon' drop like some bum charges

Some bad bitches, twist and swishers then we blazing
weed
Lights, camera, sound, crowd screaming and some
banging beats
Yep, that's all I need, yep that's all I need,
yep that's all I need, yep that's all I need
Fresh kicks, couple zips and some latin chicks
Banging crowd, raging out, Cak-ill-ak, classic shit
Yep, that's all I need, yep that's all I need,
yep that's all I need, yep that's all I need

Outro
