I guess it's over now  
Things are back to normal somehow I  
I've learned to shut it out  
No room for doubt

I'm not feelin' down  
My whole world is just upside down  
I'm not feelin' at all

Sometimes I want to run  
Mind is chaos body's numb  
I have to close my mouth  
In case the truth comes out

Don't speak, Don't feel  
Don't breathe and don't be deciding  
Just swallow the knives  
Infect life with lies that you hide  
That's how you survive

Smoke my last cigarette  
I don't want to kill myself yet  
I throw my voice away  
What's it gonna say - It says...
