

Mechanical Moth

"Time"

Visit "[Time](#)" on MotoLyrics.com

The wind in my hair
Shows his despair
Time flows so fast
Nothing will last

Now is almost yesterday
All we do is just obey
We live and we die
But time goes by

We always thought
We could stay
But in the end
We all must fade away

The closer you get to the light
The longer gets your shadow
Who will remember
Time is blind

We all wander
The tomb of time
Time doesn't care
Our memories die with us

As time goes by
Nothing lasts forever
But we will try
If we fly or if we fall

As time goes by
Nothing lasts forever
But we still try
To resist the fall
