All the feelings getting lost
All the memories I trust
I don't know where I am from
And what I got to do

Spread my wings and fly away
Lead my hands down to your heart
Dark clouds leading me astray
To the lie that's still unwritten

Eyes wide open to observe
I want to know the world
No one understands my longings
Desires that I have

Take my hand and lead me out
To a better world
To a place without the lie
To a place that's still forbidden

Hope to get through the day
Life around seems so insane
I'm so buried in myself
I need help to find the way
