"And No One Can Deny"

Visit "[And No One Can Deny](#)" on MotoLyrics.com

The rivers state internal security task force is handling
the security in the oil regions of Nigeria with measures
of brutality and guns financed with the money of
western oil companies, who operate joint ventures with
the Nigerian government
Enriching a small minority
While the vast majority becomes increasingly
impoverished

And no one can deny that severe human rights
violations have been committed in relation to the oil
exploration, detentions, executions, restrictions on the
rights of freedom of expression
(No one can deny) [x5]

And no excuse can ever be enough
For the genocide of the Ogoni people [x2]
How quickly truth can be silenced, news rearranged
and adjusted when the price is always right and the
price is always right when
Economical profit is valued higher than human life,
higher than human life

And no one can deny that severe human rights
violations have been committed in relation to the oil
exploration, detentions, executions, restrictions on the
rights of freedom of expression, association and
assembly
(No one can deny) [x5]

And no excuse can ever be enough
For the genocide of the Ogoni people, yeah
