Born in secretion  
Goat horns impale the Lambs of God  
Tearing open the sacred womb  
War against the alien faith

Black metal kommando, burn down the Jewish creation  
Black metal kommando, bring damnation upon the  
cross  
DEVASTATION

Christian persecution, in the night  
Scream as the pyre ignites  
Your god is dead, and so are you

Black metal kommando, in the night  
Black metal kommando, crush the face of Christian  
belief

I fucking spit on your pathetic trendy metal

Incineration

Burn the Bible, the book of lies  
Resurrection of a Satanic cult  
Look me in the eyes and say you defy

Black metal kommando, horny vengeance of Aryan  
steel  
Black metal kommando
