Fed to us every fucking day
Trough commercials, in magazines, on television
In every fucking movie that I've seen the last few years
Leaving nothing to our imagination, all it leaves is this
frustration
A bad taste and a feeling of anger and aggravation

A well thought out configuration to feed us sexism (x2)

Don't tell us what we should do with our bodies (x2)

Put sex under taboo
Restrain our sexuality
So they can make a profit
Selling sexism to the likes of me and you but I don't
want their fucking shit

And one more thing
Fuck you

Fed to us every fucking day
Trough commercials, in magazines, on television
In every fucking movie that I've seen the last few years

A well thought out configuration to feed us sexism (x2)

(x2) Don't tell us what we should do with our bodies
Give us back our sexuality (x2)
