The restless anger of youth still shakes this foundation
now...

on which they've built up their empires of oppression
struggling for justice, the true people's court is in
session out there on the streets

See it fall, come crumbling down
wow oh wow...watch it all come crumbling down

Wow oh wow...the times they are a changing
wow oh wow...there is no turning back

Let's go now...the time has come...
for the young...to assess the damage and reverse it!
