

Satanic Surfers "State of Confomity"

Visit "[State of Confomity](#)" on MotoLyrics.com

Comfortable lives in a capitalist democracy feeling
safe and secure until they take it away consumed by
greed pacified in apathy were disinformed to fit the
norm that corporations and media created stimulated
but constantly unsatisfied we are manipulated to value
commodities higher than justice higher than equality
higher than justice our standard of life is measured by
what we own subdued kept happy and blind
unconsciously confined kept on your knees no one bites
the hand that feeds in a state of conformity where we
value commodities higher than justice
