Saw a recent picture of you, it brought tears to my eyes  
when I realized that it's been so long, too long since I  
saw you last  
And I felt the distance cut like a blade through my  
wirst, you looked different somehow  
Older perhaps

Different somehow

I used to think we'd never be too far away from each  
other but it feels like we're growing apart  
And the absence of you is leaving  
A hollow space in my heart

[x2] Guess you're happy where you are but I can't help  
wishing you were here

(Guess you're happy) [x2]

Saw a recent picture of you, it brought tears to my eyes  
when I realized that it's been so long, too long since I  
saw you last  
And I felt the distance cut like a blade through my  
wirst, you looked different somehow  
Older perhaps, guess you're happy where you are but I  
can't help wishing you were here  
(Guess you're happy)  
Guess you're happy where you are but I can't help  
wishing you were  
(Guess you're happy)
