Worn out words and platitudes, the more they talk the  
less we understand  
Shoved around in circles  
Like pieces of dirt while the oppressive forces alter  
back and forth  
Between left and right (x2)

You went caught in the middle  
Between a rock and a hard place

Raise their own salaries,  
Increase the gap of social standards between  
themselves and the people they're supposed to  
represent

Someone please explain  
(Someone pleas explain)  
Tell me where's that welfare state that they speak so  
highly of  
Yeah, tell me where's that welfare state that they speak  
so highly of  
Do we need more people living on the streets,  
Do we need more people living on the streets before  
they'll open up their eyes?

Choose between the lesser of two evils,  
Vote for none of the above, do we really have a choice  
anyway?  
Should we choose between the lesser of two evils,  
Vote for none of the above and do we really have a  
choice anyway?

Raise their own salaries,  
Increase the gap of social standards between  
themselves and the people they're supposed to  
represent

Someone please explain  
(Someone pleas explain)  
Tell me where's that welfare state that they speak so  
highly of  
Yeah, tell me where's that welfare state that they speak

so highly of  
Do we need more people living on the streets,  
Do we need more people living on the streets before  
they'll open up their eyes?
