Great man playing war like if common people just were  
toys  
They can always buy new  
So it's OK to lose a few  
Religion's made the people blind, promised something  
they'll never find  
A precious paradise  
A final ride into glory  
Cause when you're killing for money  
The blood you spill doesn't count  
How you stop this fucking madness,  
get them off of their high horses,  
high and mighty bunch of assholes, god damn fucking  
hypocrites

What's the problem, they're off to Balkan  
Great man playing war like if common people just were  
toys  
They can always buy new  
So it's OK to lose a few  
Cause when you're killing for money  
The blood that they spill  
Doesn't count
