Don't need nobody just me and you.

Like the way you walk

Like the things you do

Got no confusion with you by my side

And when it's time to go I'm satisfied.

Oh one and one is one

Oh one and one is one.

So let it ride yeh let it be

In this old world just you and me

We'll go flying each and every night

Carry your picture on every flight.

Oh one and one is one

Oh one and one is one.

And when I call you on that telephone

My heart skips a beat if you're not at home

Yeh when I call you on that blue telephone

I can hear your voice calling me back home.

Oh one and one is one

Oh one and one is one
