"Slip & Slide"

Visit "[Slip & Slide](#)" on MotoLyrics.com

You can warm your heart to my heart my love
But long time sun is what I'm thinkin' of
You'll feel like oz n feather when we two get together

You can s-scratch my back, you can get to feelin' loose
You can dust your heels, don't need no excuse
You'll always feel the spirit, let yourself get in it

You live in the clouds, you step on the sea
You silver the screen, are you playin' with me?

You live in the clouds, you step on the sea
You silver the screen, are you playin' with me?

We'll slip and slide all the way around the room
And if we hit the walls, we make like big bamboo
Pick myself up off the floor, turn around be bop some
more
Hip hip
