Six feet under I lie and think of you
Got to be, got to be with you
Six feet under you lie and think of me
But,
Six feet under you lie and think of me
What a way, what a way to be
Six feet under I lie but I've had you!

On and on
On and on you live and die and that is all
On and on
On and on you live and lie and off you're gone
And off you're gone
And off you're gone and off you're gone!

Six feet under this heart of stone that's me
What a way, what a way to be
Six feet under I lie, that's good for me
But,
Six feet under my life is getting through
Got to be, got to be with you
Six feet under I lie but I've had you!

On and on
On and on you're laughing out, you're laughing out
On and on
On and on, do laugh it out before it's gone
Before it's gone
Don't get me wrong, don't get me wrong!

You will know when you're down, when you're down
Oo oo oo
You will know when you're down
Po po loh, po po loh, po loh oh woo wow woh oh yeah!

Six feet under I lie and think of you
Got to be, got to be with you
Six feet under you lie and think of me
But,
Six feet under you lie and think of me
What a way, what a way to be

Six feet under I lie but I've had you

On and on

On and on you're working out, you're working out

On and on

On and on then work this out before it's gone

Before it's gone

Don't get me wrong, don't get me wrong!

Oh yes!

On and on

On and on you're laughing out

(We're laughing out)

On and on

On and on do laugh it out before it's gone

Before it's gone

Don't get me wrong don't get me wrong!

Oh yes, doo do doo do doo...
