(Verse)

And now this is what you meant  
You be creating static in an explicit environment  
You took the experience but no now, look at you by me  
Crystalized shit mixed with the yellow powder (pull  
another hit)  
Pull until you choke, your eyes turn around it  
Your bitch stuck in clothes, I watch death being like  
mist  
Party with the gods, talkin bout next year

(Chorus)

Baby I feel that you got it  
It's starting from within  
Can't recollect more bits of flavor  
And now my girls are up in heaven  
I can't wait  
I need you love  
Is this my fate?  
Dance with me near death

(Verse)

I could be tranquilized in person  
I promise that you'll get close enough into all my  
madness  
Shout for extreme, that is impossible fashion  
If it'll get you by that's good management poisons  
Administer you trips  
Both would make you slip, blew off, start from saying  
It's not in my eyes, you can risk being so heaven  
Still fuckin some way, if you need me in a spiritual  
world

(Chorus)

Baby I feel that you got it  
It's starting from within  
Can't recollect more bits of flavor  
And now my girls are up in heaven  
I can't wait  
I need you love  
Is this my fate?

Dance with me near death
