Yeah, never been a mag, never been a cat busser
Trap hustler running my state nigger, I'm the black
governor
I'm of another breed, but not from another planet
I'm not the son of Jesus even... for at it
Need some moment... with the beef of soldiers
... make it trife,... billy dance, tell them hands
Act like it's time on...
I making trife, I'm performing the impossible
Like it was a magic show, had to go and get brother
who are known to spit
Listen you better off with a kiss and death, this is fresh
The supermarket produce, I'm about to show you
And know you, what you wanna go through
And... my life, my name is Trife for a reason
Change the season, give me the... watch the chicks
head block
Know I'm not a Flintstone but I could make the bed rock
It's cause I'm awesome they like don't cross him
If you see him coming play dead like opossum
Sunny sun sun, he gets a dum dum
If anybody asks you silly rock come from
And even got a middle fame, but I got a middle finger
... snatching all your little chains
Back on my grizzly, trying to get that 6...
That's the reason I be killing bees like it's...
Plus I got the hunger pains, I had enough of games
Only dealt with fame, now peace to my brother James

A rock piece,... make a price, how many niggers... me?
A rock piece,... make a price, you need to know who you
fucking with
A rock piece,... make a price, how many niggers... me?
A rock piece,... make a price, you need to know who you
fucking with

Nigger, you fuck around and get our face blown
I get the case closed,... great...
You bitch acting if you getting little fame
Why you so damn...
I said bitch don't watch me, watch your god damn kids

If he... walks... raised on the block, where pistols be
fucking
We care for the... so killer nonsense...
... know you can find me down in the ghetto on the back
blocks
Where niggers is welded to that metal giving swag
from a different angle
We won't settle for this whole shit
I'm convinced niggers should be level
We act hard, rap hard, we just hard
We fighting out of the hood, barb wire and...
Go to pound go off if you think of getting it far
Fuck taking back to the block, and get rap back to...
nigger

Yo, bigger than my frame look, plus I got the game tour
Why you dudes still in the hood pulling the same...
Getting money ain't the same since the drake hooks
And I can see the writing on the walls, like it's Facebook
I like a chick with big breasts, that's a great cook, yeah
And likes to bang like my base should
Another day I'm in the grind like a runaway
Trying to get a record out, and you better check it out
I'm stepping out like Jill Jack I'm so... with a dope track
that's so crack
The... make you fall back from the shine
Listen to my rhyme, last brothers on the front line still
standing

A rock piece,... make a price, how many niggers... me?
A rock piece,... make a price, you need to know who you
fucking with
A rock piece,... make a price, how many niggers... me?
A rock piece,... make a price, you need to know who you
fucking with.
