Love me the way you want to. act to me the way you want to be treated. It's always incredible the way you do thing and say things and the way you want to be treated because you made me a better person I think of you as my best friend you take the spot in a heartbeat and that's why I love you. You always tell me I should be the best that I can and tell me I shouldn't cry over little things and you respect my feeling and that's what I like about you.

Made me a better person helped me through my problems and always told me to be strong slipped a love note under my door tell me you love me from night to morn and that's what I like about you.

I gave you problems and a hard time you drove me 'round creation. And you took everything you had and called it mine I enjoy having you around and I miss you when your'e gone and whenever I can't see you I cry those dumb business trips make me die I can't stand to see you whine. But I don't care and that's what I love about you I love you I love you I love you and if you don't think I do, then listen to this song.
