I woke to the sound of a crash
Oh no, I know you're fighting next door
I thought I'd seen the last
I can't believe you still go back for more

What have you got in mind
Why do you waste your time
He gives you nothing at all
He's hurt you before
He'll hurt you again
Leave it all behind

Here I am
Wondering when you'll come into my life
There you are
With fire in your eyes

Here I am
You know that I'll do everything I can
There you are
Holding my heart in your hands

You know there's something wrong
And I know, I've seen it on your face
Soon as he finds you're gone
There'll be someone taking your place

Haven't you had enough
Haven't you had it rough
To hold emotions for three
So take my advice
Head for the door
Leave it all behind

Here I am
Wondering when you'll come into my life
There you are
With fire in your eyes

Here I am
You know that I'll do everything I can

There you are
Holding my heart in your hands

Here I am
Wondering when you'll come into my life
There you are
With fire in your eyes

Here I am
You know that I'll do everything I can
There you are
Holding my heart in your hands
