"Let It Grow"

Visit "[Let It Grow](#)" on MotoLyrics.com

Drunken alcohol intoxication
I can't be trusted to control my own frustrations
And plus I'm prone to such extreme exaggeration
I'll spend my mornings in regretful contemplation

But society approves it
All my people run to use and use and use it
Because they need something to do
Everyone needs something sometimes
How about you?

Don't just say no
Let it grow, let it grow
Don't just say no
Let it grow, let it grow, let it grow, let it grow

Deep green inhalations
They give me such fantastic vibrations
I can think of thousands of organic justifications
How many more times do we have to have this
conversation?

The weather outside is frightful Oh.
But the fire is so inspiring, the fire is so inspiring .. so

Don't just say no
Let it grow, let it grow
Don't just say no
Let it grow, let it grow, let it grow, let it grow
