A bitter blow  
A darkened maze  
Can take you down  
A fearless man  
A shattered spirit  
Will immerse in misery

Come see it, come feel it  
It is here  
Come see it, come feel it  
It's alive  
Delirium- out of bounds  
Delirium- dying inside  
Delirium- left to wither  
Delirium- Infernal Majesty  
Delirium- out of bounds  
Delirium- dying inside  
Delirium- left to wither  
Delirium- Infernal Majesty

Count me in  
(Let's) ride the storm  
(And) fend them off  
Set me free

A source of light  
A tower tall  
Can lead the way  
A scent of blood  
A lust for life  
Will take you home

Come see it, come feel it  
It is here  
Come see it, come feel it  
It's alive  
Delirium- out of bounds  
Delirium- dying inside  
Delirium- left to wither  
Delirium- Infernal Majesty

A broken mind  
A fiery soul  
Will stand the pain  
A tightened fist  
A will divine  
Can break the chain

Come see it, come feel it  
It is here  
Come see it, come feel it  
It's alive  
Delirium- out of bounds  
Delirium- dying inside  
Delirium- left to wither  
Delirium- Infernal Majesty

Count me in  
(Let's) ride the storm  
(And) fend them off  
Set me free
