"To The Mountains"

I lost touch with me
I was and still am fire

Ignite! To the mountains

Live, breathe, sense, move
I know, it pains me too

Ignite! To the mountains

Lies, deceit, fright, escape
Caught, burdened, gone, trapped
Get up, on your feet
Give me your very self
It's time to rise

Persist, progress
Chin up, and ignite

To the mountains

Live, breathe, sense, move

Cast the light, deadly trail
I see it now
Sky is lit, opens up
I want my share
Lift me up, carry me
I need you now
Heal the wounds, bloody deep
I have to stop

Ignite! To the mountains (x 7)
