Behold the Magnificence  
To Reign from the Black  
Confide your Body on the Flames  
Walk without moving from your Place  
My False Ego shall feed the Altar's Fire  
The Formula is Analysis and Disintegration  
To Reach the Supreme Identity  
The Final Transfiguration

I am Life  
The Death is only the Continuity of my Existence  
My Secret Star  
You are my Melody in the Silence

Burn your Body with the Fire of your Spirit  
There's not Division Either Changes in a Perfect State  
There's not Laws for Whom Is All

Extract Yourself the Eyes Just to Watch  
With your Spirit  
Tear to pieces your skin cursing to the touch  
The Necessities and Limitations Must Be Abolished  
With Blind Passion for the Eternal Freedom

When I Submerge Myself in the Negative Existence  
I Shall Be In All from Nothingness

I am Life  
The Death is only the Continuity of my Existence  
My Secret Star  
You are my Melody in the Silence

I am a God  
I was never born because o'that I Shall Never Perish!
