Mornings are damp and baptized by the rain
I hope that these lines will creep into your brain
Feelings on trampolines bouncing up and down
After all you've put me through I still want you around

Can you find a way to make it out of bed today?
God knows you've got it so much worse

The aisle's cold it's open wide
You're no longer by my side
So quick for you to decide
There's no groom there's just a bride
You're just a heartbreak in disguise
I thought that you were on my side
I risk my life and you don't try
There's no groom there's just a bride

You took all my sunbeams and gave me all your shade
My thoughts begin to blister you seem to be okay
You put me on your shelf now I'm collecting dust
Spending my days counting the broken bonds of trust

Can you find a way to make it out of bed today?
God knows you put me in this hearse

The aisle's cold it's open wide
You're no longer by my side
So quick for you to decide
There's no groom there's just a bride
You're just a heartbreak in disguise
I thought that you were on my side
I risk my life and you don't try
There's no groom there's just a bride

I gave you front row seats
I gave you champagne suites
What did you do for me?
The spot you have won't be reserved
I'm getting on my feet
Your scents worn off my sheets
Snow's melted off the streets

I won't look back at what we were
I thought I was your guest
But now I'm just your pest
And you're just like the rest
You know you've got a lot of nerve
Won't light your cigarettes
Drown in your streams of sweat
One day you will regret
I hope you get what you deserve

The aisle's cold it's open wide
You're no longer by my side
So quick for you to decide
There's no groom there's just a bride
You're just a heartbreak in disguise
I thought that you were on my side
I risk my life and you don't try
There's no groom there's just a bride
