With you in my garden  
its more peaceful inside  
I don't need anything else  
to make me feel alive

You electrify me  
And I want to be in your arms  
for always  
for always

Our love is swollen  
Made of the quietest shade of loud  
Holds me like an anchor  
Floats just like a cloud

Our love is swollen  
Made of the quietest shade of loud  
Holds me like an anchor  
Floats just like a cloud

Our love is swollen  
Made of the quietest shade of loud  
Holds me like an anchor  
Floats just like a cloud
