"Don't Stop Breathing"

Visit "[Don't Stop Breathing](#)" on [MotoLyrics.com](#)

How come it feels so right?
How come it feels so warm tonight?
The more I take my time
The more it's bringing me upside down
To sit and watch the game explode in colors, sounds
And dances that will never be named
It doesn't seem that hard to play.
How come it feels so right?

Don't stop breathin'...

How come it feels so right?
How come it feels so warm tonight?
Don't try t... taking me down
'Cause everything's all right, alright, alright
It makes me makes makes wanna
Cross the lines, and love, and cry, and shout
And let the melody out
It's not that hard to understand
How come it feels so right?

'Cause my heart's still beatin'
And my soul keeps burnin'
And the sun's still shinin'
And the drums keep rollin'

So I don't stop breathin'
