Savage, Rock City's with me
Where my DJ's? Where my, where my DJ's?
This is for the club, this is, this is for the club
This is for the girls, this is, this is for the girls, come on

Girl you hot like fire, you are burnin' the place up
Such a pretty face that's why there's no need for make
up
G-g-girl you hot like fire you are burnin' the place up
Such a pretty face that's why there's no need for make
up

See I like the way you move, dancin' to the tune
Girl is hot like fire and her body is so smooth
Yeah, her curves up on her waist, the smile upon her
face
Damn, I feel so good when she walks towards my way

So she's my queen and I feel just like a king
When she's standin' next to me now

Girl you hot like fire, you are burnin' the place up
Such a pretty face that's why there's no need for make
up
G-g-girl you hot like fire you are burnin' the place up
Such a pretty face that's why there's no need for make
up

See shawty took the night off, she say she want to go to
the club
As soon as they turn the lights off the girl went down on
the floor
Girl went down on the floor, girl went down on the floor
Girl went down on the floor

This club is moved from wall to wall, I'm steady tryin' to
walk
You stand out up in the crowd when you're dancin' on
the floor
The hottest girl in sight but she cool as ice
So cool that she sendin' these chills down my spine

So she's my queen and I feel just like a king
When she's standin' next to me now

Girl you hot like fire, you are burnin' the place up
Such a pretty face that's why there's no need for make
up
G-g-girl you hot like fire you are burnin' the place up
Such a pretty face that's why there's no need for make

See shawty took the night off, she say she want to go to
the club
As soon as they turn the lights off the girl went down on
the floor
Girl went down on the floor, girl went down on the floor
Girl went down on the floor

She wind it up and the DJ play it again
She walk it up like the girl spinning up in the way
Girl wind it up again, girl wind it up and again
Girl wind it up, girl, girl wind it up now

She wind it up and the DJ play it again
She walk it up like the girl spinning up in the way
Girl wind it up again, girl wind it up and again
Girl wind it up, girl, girl wind it up now
