Morbosos susurros en la noche...  
... invocacion de las almas antiguas

Our swords mutilate his flesh  
Our powers destroy their minds  
Your blood tinged my face...  
The horror screams in the night  
Are sweet music to my ears  
Darkness in our mother land  
Unmercy our fate  
We came for revenge  
To this rotten fields

Los supervivientes son empalados  
Cuerpos sin vida estan ardiendo  
Bajo la luna de invierno  
El orgullo de los guerreros cobra vida!

Now our souls travel  
To dark land of shadows  
To live forever more  
In the kingdom of unholy ancient masters of war...  
... within the next invocation...
