"Diamond Days"

Got this feeling, a piece of luck I'm breathing
Jumping canyons, leap of faith I hope my breath
These are the diamonds days
My vision of golden sense
They were the faction dreams,
No more with broken hearts
Got this feeling, long ago

Surrounded by heroes, all torn apart
They gather momentum, which comes from the start

We keep this feeling, endless luck I'm breathing
These are the diamond days,
My vision of golden sense
Got this feeling, long ago

Surrounded by heroes, all torn apart
They gather momentum, which comes from the start
Surrounded by heroes, all torn apart
They gather momentum, which comes from the start

Diamonds are blood like ...toy
Diamonds in your hope, stop wasting time
We all feel like deserted

Surrounded by heroes, all torn apart
They gather momentum, which comes from the start
Surrounded by heroes, all torn apart
They gather momentum, which comes from the start.
