Please walk in now, the rusty gate  
I tried my hardest now, broken my old ways  
More desires, more people gone  
Inflating ... are here, things before too long  
One, one, one, one,  
One, one, one, one,

Come on through this, it's safe to enter  
A hundred mornings gone,  
Another cupid show the door  
As the clams arrive, they get down  
When the time is right, they will go my way

I'm off the right, that you gonna miss my mind  
Gonna miss my mind, know that  
And you knew that in time  
You gonn miss my mind  
You gonna miss my mind, I know that  
In time that you gonna miss my mind  
You're gonna miss my mind  
You're gonna miss my mind

[Guitar break, Piano Part]

I love you, I love you.
