It's forbidden and I see, case of sexuality
And I'm twitching, round the clock
Spend time compulsively
And live, rosin' my, my, my head
This that glass away, you're under my skin, skin

[Chorus]
Obsession takes me over
Confession, takes me higher
Obsession, brings me closer to you
Brings me closer

I admit, this sensation, making love recreation
New kid, all night long, when we all choose to make
High parts, you're staring right at me
Just leaving, turn away, turn away

[Chorus]
Obsession takes me over
Confession, takes me higher
Obsession, brings me closer to you
Brings me closer

Rest of the day much higher
I can't do no more
Put the thoughts together
Containing every aspire, perfect qualifier
I can't wait no more
I can't wait no more
Brings me closer to you
Brings me closer

[Chorus] x 2
Obsession takes me over
Confession, takes me higher
Obsession, brings me closer to you
Brings me closer.
