Mama said to stay away from guys like you  
She said they were nasty  
Make me do things I don't wanna do  
Stay away from bad boys the have one thing  
On their mind  
Their hormones are raging  
And they want it  
All the time

And I know  
'Cause she said so  
And I can't  
Just let you go  
And I know  
'Cause she said so  
And I can't  
Just let you go

I love you very much  
You're nice to see and nice to touch  
Never ever ever treat you wrong  
I've been waiting for you all along

And I know  
'Cause she said so  
And I can't  
Just let you go  
And I know  
'Cause she said so  
And I can't  
Just let you go

Never let go  
I want you to know
