Twisted little sister  
Rollerskate baby  
Driving me crazy tonight  
I'm bound in your luscious chains  
Beat me and hurt me  
I love to get into pain  
You never knew  
What this pain could do for you  
Go down-down-down  
To the penitentiary  
I tried suicide-  
Little sister ride  
Hoping for more bodies to burn  
For such an action  
Call main attraction your love  
I'm gagged-gagged and tied to a bed  
Sweet tasting sister  
Love what you do to my head  
You never knew  
What this pain could do for you  
Go down-down-down  
To the penitentiary  
I tried suicide-  
Little sister ride  
Broken-broken heart at the seams  
Hey I know you hate me  
You know you ate me so mean  
But now that my session is through  
Twisted sister I'm longing for you (come here)  
You never knew baby I need you.  
You never knew  
What this pain could do for you  
Go down-down-down  
To the penitentiary  
I tried suicide-  
Little sister ride
