Thinking about yesterday  
How my life used to be  
Now I'm locked inside this place  
I'm a schizophrenic case

All the faces I now see  
Never show a sign of glee  
Every night we start to bustle  
It's time to do the Thorazine shuffle  
The Thorazine shuffle  
Thorazine shuffle

Everyday half past four  
They push my food through the door  
Every night right at eight  
They put me back into my straight

All the paintings I have made  
They look kind of strange  
Every night we start to hustle  
It's time to do the Thorazine shuffle  
It's the Thorazine shuffle  
The Thorazine shuffle, yeah

I'm getting anxious  
I want it now, oh yeah, yeah

The Thorazine shuffle, yeah, oh
