"Love At Its Best"

Visit "[Love At Its Best](#)" on MotoLyrics.com

Isn't it weird, Isn't it strange
The way the world falls into place
Don't make the mistake if you don't want the pain
It's all in your head, this love's not a game

You were much more to me
Than any ordinary thing
I loved you so much more than love at it's best
You're my princess (Princess)

Wasn't it hard when she ran away
Like a shot of a bullet that hit in the face
I'm taking my mask off and running the right way
The way you will find me and bring us home again

You were much more to me
Than any ordinary thing
I loved you so much more than love at it's best
You're my princess (Princess)
Ooo my princess

I've been wandering around with my head in the clouds
Wondering how you'll love me now

Isn't it weird, Isn't it strange
The way the world puts our love out of range
