In deep in the heart of every man  
Lies a hidden dream or plan  
To be a millionaire  
Life without a care

Hey, cool cat  
Does this apply to you?  
Oh, don't you lie, don't you lie  
'Cause you can't hide the truth

I can see what's behind those eyes  
Tongue so twisted from tellin' lies  
And you might think you're strong  
But you better not treat me wrong or else, I'll say so  
long

Goodbye, I never want to see you again  
Goodbye, I don't want to be your friend  
So long, now we've reached the end  
Time for me to turn that bend

When time has run away  
And there's no need for me to stay  
And lose myself to you  
And be abused by you

I don't need the pain  
From your mind games  
When you try them again  
I won't be there for them to work anymore

Now you're back and you're beggin' please  
Crawling on your hands and knees  
You thought you were a star  
But now here you are, you haven't traveled far

Goodbye, I never want to see you again  
Goodbye, I don't want to be your friend  
So long, now we've reached the end  
Time for me to turn that bend

When time has run away

And there's no need for me to stay  
And lose myself to you  
And be abused by you

I don't need the pain  
From your mind games  
When you try them again  
I won't be there for them to work anymore
