Mama said to stay away from guys like you
She said they were nasty
Make me do things I don't wanna do
Stay away from bad boys they have one thing
On their mind
Their hormones are raging
And they want it
All the time

And I know
'Cause she said so
And I can't
Just let you go
And I know
'Cause she said so
And I can't
Just let you go

I love you very much
You're nice to see and nice to touch
Never ever ever treat you wrong
I've been waiting for you all along

And I know
'Cause she said so
And I can't
Just let you go
And I know
'Cause she said so
And I can't
Just let you go

Never let go
I want you to know
