"Don't Go Outside"

Temperatures rise, rising and reeling
from feral files found in the trash can
confirming all our deepest fears

Ooh television keeps us scared to death
Ooh don't go outside, better stay in bed

Mold in the air might cause a car crash
somewhere in France
leading to outbreaks of airborne plagues
violent earthquakes

Ooh television keeps us scared to death
Ooh don't go outside, better stay in bed

(Ah) Run to your momma's basement
there ain't no air
so you can't hear the TV singing
soon we'll all be dead
get up! get up! go on and see the very last sunset

Ooh television keeps us scared to death
Ooh don't go outside, better stay in bed
