i think i've waited long enough
our world was once forget me not
and now i wait another year (another year)
i need you here

i think i've heard this one before
but it's not you walkin' through my door
and then i wait another year (another year)
i need you hear

don't bother it now
let sleepers lie
bygones have all gone by
forgot what we fought for
hard as i might
don't have the will to fight

forgive and forget
whatever was said
cause we're growing up by the hour
i never would let it
go on like it did
all good things have endings
forgive and forget
all good things have endings

don't bother it now
let sleepers lie
bygones have all gone by
forgot what we fought for
hard as i might
i don't have the will to fight
(repeat)
