I don't need nobody, not at all
'Cause I'm going to end it all in the light at the break of
dawn
And I don't why or what went wrong
I'm tired of trying to pretend to believe that I can go on

The pain won't let me get away
And now I know we'll never be the same
I don't want to live, not another day
I don't want to live this way
I said the pain won't let me get away

I'm going to get my staples and a bottle of booze
I've got these skewers in my mouth now there's nothing
else I can do
Except to run out naked in the road
Reaching up into the air
Got the taste of blood in my throat

The pain won't let me get away
And now I know we'll never be the same
I don't want to live, not another day
I don't want to live this way
I said the pain won't let me get away

Oogacha, oogacha, oogacha, oogacha
Oogacha, oogacha, oogacha, oogacha
Oogacha, oogacha, oogacha, oogacha

The pain won't let me get away
And now I know it'll never be the same
I don't want to live, not another day
I'll never let you live this way
I said the pain won't let me get away
