There's a beautiful sky tonight and  
if you were by my side then we could share it but you  
are gone.  
So come at me with your moon and burn me in the  
stars  
cause nothing matters anymore.  
If I could only see you now for about an hour  
maybe just a minute  
just to ask  
What has he got that I don't have?  
Is it his brown eyes?  
I know blue eyes get boring but I'll wear dark glasses  
all the time and  
hey if you want me to, I'll take a knife to my own bright  
eyes.  
If I could only see you now for about an hour  
maybe just a minute  
just to ask  
what has he got that I don't have?  
Is it his brown eyes?  
Well, I'll give you a thousand reasons that tonight  
you should grant me this one wish.  
Like the one year of my life that I gave to you and  
now you put me through hell.  
You break me up.

I should hate you, but I can't replace you in my heart.  
Why am I so pathetic?  
I don't get it why you won't return my calls.  
Can't you look at me once?  
And please if you got a minute,  
enjoy this lonely sky with me.  
It'll swallow us whole if we only let it.  
If I could only see you now for about an hour  
maybe just a minute  
just to ask  
what has he got that I don't have?  
Is it his brown eyes?  
Well, I'll give a thousand reasons  
that tonight you should grant me this one wish.  
Like the one year of my life that I gave to you and  
now you put me through hell.

You break me up.  
If this sky's going to eat us then I'd like to be digested  
into a million pieces with you.  
I'd love to be scattered to hell with you.  
To hell with you.
