And I'm gunna get to, the bottom of this  
Gunna peel back my, skin  
And look at myself shakin', and shiverin', yeah, yeah

And I'll get through  
Come in the house  
Survey the scene  
Find the two of them tall as trees  
And I turn myself up  
I found the coolant  
to dangle in my twilight, well

And I'm gunna get to, the the bottom of this  
Gunna peel back my, skin  
Look at myself shakin', and shiverin', yeah, yeah

And as my skin collects, in a pile on the ground  
I'll radiate heat  
And turn off my head  
And just pretend, I don't insist  
That I'll stay clearly til the end  
Of the ropes that I've been hanging from  
Whoa-oh-oh, I say loosen from the trees  
I plummet to the ground, feel impaled and turned  
around  
Turn me right around  
Finally Free from the ups and downs

And I'm gunna get to the bottom of this  
gunna peel back my skin  
And look at myself shakin' and shiverin', yeah, yeah

And I'm gunna get to the bottom of this  
gunna peel back my skin  
And look at myself shakin' and shiverin', yeah, yeah
