It's saying for so long
Your soul's fairy song
Time after time
You show the dancing thru your fingers
Go light the day
When love have gone away
Out on your own
And over lines you never knew that

Love try to find you
So many time it was just one step behind you
So turn around

Why do we got to lose?
Let's take tonight before it's over
I'd open my heart for you
Let your love go free
Why do we got to lose?
Baby threw your fears thru the wind
Baby threw your fears thru the wind

I know how you feel
But it's time for scars to heal
So from the heart
Don't put behind you
Now you walking out of the night
And strait it thru the line
This time around
You know your dreams could not be broken

Love try to find you
So many time it was just one step behind you
So turn around

Why do we got to lose?
Let's take tonight before it's over
I'd open my heart for you
Just let your love go free
Why do we got to lose?
Baby threw your fears thru the wind
Baby threw your fears thru the wind

Sometimes
Love hurts and spin you around its all
This time don't hide
To walk away

Why do we got to lose?
Let's take tonight before it's over
I'd open my heart for you
Just let your love go free
Why do we got to lose?
Baby threw your fears thru the wind
Baby threw your fears thru the wind

Why do we got to lose? (We got nothing to lose)
I'd open my heart for you (I'd open my heart for you to
let you know)
Why do we got to lose?
Baby threw your fears thru the wind

Why do we got to lose?
I'd open my heart for you
(to fade...)
