Sucked into another black hole
Drag me further down the road
I can't keep from feeling
Time drags me down the line
Gets me closer every time
Cause it's you I'm missing

You're my angel without wings
Don't need em but high enough
You're flying above me
I'll keep looking up
You are my angel, my angel
I'll keep looking up

Lying hand in hand
We're face to face to skin
I can't keep from feeling
There's no place I'd rather be
Than you tucked away with me
All in this moment
You're my angel without wings
Don't need em but high enough
You're flying above me
I'll keep looking up
You are my angel, my angel
I'll keep looking up
I'll keep looking up

Falling back down
From the sun to the ground
Well I can't turn back now
I'll keep looking up

You're my angel without wings
Don't need em but high enough
You're flying above me
I'll keep looking up
You are my angel
You are my angel
You are my angel, my angel
I'll keep looking up
