Last time i said it was the last time,  
Oh 'cause last time i thought the words were through.  
But this time it cut alittle deeper,  
Oh yeah, this time the pain is all brand new.

Well it's a long way to fall  
When your standing on the top  
And it's a sads way to feel when you know it's gonna  
stop.

So go on and take me  
Go on and break me baby  
Go on and use me  
Just don't confuse me anymore.

This time i swear that it's the last time,  
Oh yeah this time the table's gonna turn,  
'cause this time i know it's not the real thing,  
Oh yeah, this time the lesson has been learned.  
But i just can't so no when you look at me that way,  
And i wanna believe every tired word you say.

So go on and take me  
Go on and break me baby  
Go on and use me  
Just don't confuse me anymore.

Let me be the only one you've ever wanted  
Cant you see that im the onlyt one who's got it?  
Let me be the only one you've ever wanted  
Cant you see that im the only one who's got it?

So go on and take me  
Go on and break me baby  
Go on and use me  
Just don't confuse me anymore.
