"Engine Heart"

Visit "[Engine Heart](#)" on MotoLyrics.com

in this warmth an engine grows
silent talk that soothes my soul
for it's a motor of emotion
strum strengthened by devotion
every day

in this warmth an engine grows
that fuel of yours drives me back home
honey in the hive it is
water from the skies it is
what i need to keep rolling on

these pistons
have been working overtime
all my life

soon to be idle
will i never find you folded
in my warm arms

in this warmth an engine grows
i pray for strength in this trashed world
strengthening my engine heart
so it cannot be torn apart
every day
