It's raining now  
I couldn't be more soaked up in you  
Cause I conduce  
That you're in my heart  
Although we are  
Many weathers apart

Cloud came by  
I'm overshadowed by you  
While I conduce  
That you're in my heart  
Yet we are  
Many weathers part

Like cumulo-nimbus  
Your memory lingers  
Drifting my thoughts afar  
I sit in my car

The way we are  
Many weathers apart

I can see there's a little rain  
I can see sunbeam again  
I'm alive  
I was hopelessly dead  
I'm achieve  
Achieve what I said  
That's my line

The sun is out  
It shines an people like you  
All the ones I knew  
They're in my heart  
Although we are  
Many weathers apart
